Re: Resignation of Board Seat

Neighbors, Friends, and Colleagues,

I moved into the Salton community believing I could serve community needs as a school teacher—a service I relished for seven years. I sought office on the Salton Community Services District Board in the belief I had found a way to further serve my neighbors and friends—a challenge I also relished and intended to continue if voters returned me to office in November.

Resigning from Coachella Valley Unified School District was a difficult choice, made more difficult as it would necessitate resignation from Salton Community Services District as well. I was not and am not enthusiastic about choosing resignation—but it is the choice I have made.

Effective Monday, August 31st, 2009, I resign my Board seat at SCSD. I hope, in the coming election, voters will be able to choose directors whose only agenda is selfless service of the community.

I thank you all for the opportunity to serve and for the lessons learned.

/S/ Dr. Jerry D. Medders, President 2009
Salton Community Services District Board
