West Shores Youth Center

To: Salton Community Service District Architectural Committee
PO Box 5268 Salton City, Ca 92275

From: West Shores Youth Center Corporation
2152 Frontage Rd Salton City Ca, 92275

The purpose of this correspondence is to request that the architectural committee please look into who owns the property facing the south of the Youth Center. The property sits between the Youth Center and that lot that is so nicely fenced.

One possibly 2 years ago there was an old abandoned trailer left on the above mentioned property. It was an eye sore, and posed a safety threat to the children that came to the center on a daily basis. The SCSD found out who the property belonged to, and asked them to clean up the area. They did, but they also left quite a significant amount of debris behind.

The trash which consists of pipes, wood with nails sticking out, and some insulation material is an eye sore and poses a safety issue. Sometimes the West Shores Youth Center will allow people to work off community service hours. These people along with the kids that regularly attend do police call around that area. No one has been injured thus far, but that possibility exists, as long as the debris remains on site.

West Shores Youth Center Corporation respectfully request the SCSD Architectural Committee find out who owns the property, and ask them to clean up their area.

Thank you so, for your consideration concerning this matter,

A handwritten signature in black ink that reads "Darryel H. Neal".
